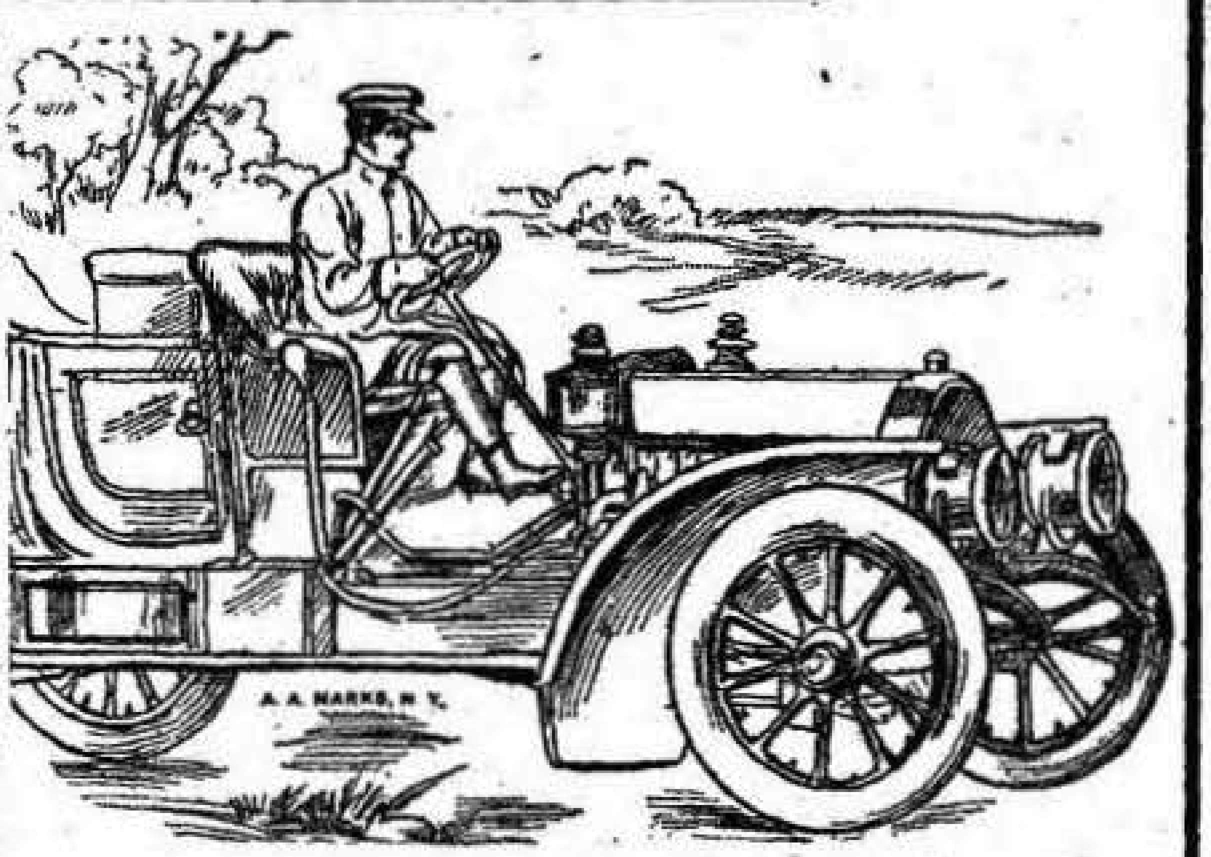
MARKS AN EPOCH IN THE HISTORY OF ARTIFICIAL LIMBS.



MARKS PATENTS from 1854 to 1895 cover all the accredited improvements in artificial legs and arms, and make the Marks artificial limbs peerless. Rubber feet remove jar and make the stump-bearings easy. Rubber hands extend the limits of accommodations.

Light, Durable, Practical. Do not get out of order, are inexpensive to wear. Appreciated by over thirty-eight thousand wearers. Forty-six highest awards granted by Industrial Expositions.

Appointed by U. S. Government, railroad companies and other large corporations to furnish artificial limbs to pensioners and employees.

The Limits of the utility of Marks artificial limbs are unbounded. Persons wearing them engage in every occupation and profession.

George L. Childs, Chauffeur, Essex County, N. J. "I have been wearing one of your legs for over three years, and have found it the best in the world. I have been chauffeur for nearly two years, and have been driving the Peerless motor car with good results. I can recommend your limb to anyone in the world, and I will be glad to do so."

Send for **Manual of Artificial Limbs**, containing 432 pages, with 724 cuts. Instructions are given how to take measurements and obtain artificial limbs without leaving home.

OFFICE
OF THE
Springfield Directory,
135 Dwight Street,
THE PRICE & LEE CO., Publishers.

Directories of all the Principal Cities on file for the accommodation of our Patrons and the Public.

SPRNIGFIELD STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets, avenues, or places run from or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of Main street No. 310 comes, turn to Main street, and you find that Worthington street intersects at 306, right side, and Bridge street at No. 340, showing that No. 310 comes on the right side of Main street between Worthington and Bridge.
